COURSEWORK

Basics of Web Development & Coding Specialization

Coursera

- Developed responsive web pages using HTML5, CSS3, JavaScript
- Enhanced web design using Bootstrap 4
- Gained solid working knowledge on DOM manipulation
- Ideated and designed my first portfolio

Full-Stack Web Development with React Specialization

Coursera

- Hands-on experience in developing single page applications using ReactJS
- Usage of various ReactJS features like react-router, react-forms, react-strap, react-animations, react-redux
- Multiplatform mobile app development with react-native
- Incorporating Redux architecture to optimize an existing react/react-native application
- Accessing native capabilities of devices using ExpoSDK
- Built and configured a back-end server using NodeJS and Express framework
- Featured a REST-ful API for front-end to access back-end services

EXPERIENCE

Software Engineer

Accenture Solutions

📅 2017 – 2020

📍 Bengaluru, INDIA

- Specialized in Automation Testing using TOSCA for both desktop and web applications
- Earned multiple certifications in TOSCA (AS1, AS2, TDS1, TDS2, AE1, qTEST)
- Provided high quality deliverables in module creation, testcase creation, DEX implementation and test execution using TOSCA
- Active contributor in data collection and sharing status reports with stakeholders
- Conducted multiple brownbag/KT sessions to help improve team's productivity

EDUCATION

B.E in Mechatronics

Kongu Engineering College

📅 2013 – 2017

📍 Erode, INDIA

SKILLS

HTML5

CSS3

JavaScript

BootStrap

ReactJS

ReactNative

Redux

NodeJS

Express

MongoDB

PROJECTS

Word Builder Game

- A classic word-builder game using ReactJS
- It's a time-bound game where you compete with a word-generation bot
- Made use of a public Dictionary API to power the bot

Donate Anything App

- A concept app using ReactNative with an intention to connect NGOs & donaters
- Matching the right donater to NGO based on location and items
- Gained hands-on experience in ReactNative & NodeJS

Ristorante - Capstone

- Developed a restaurant info app as part of my Coursera specialization
- Gave me a good understanding of ReactJS, Redux along with basic server-side concepts
- Learnt to build and configure a web server using Express & NodeJS

CERTIFICATIONS

- Advanced Styling & Responsive Design 
- Web Design for Everybody Capstone 
- FrontEnd WebDevelopment with React 
- Multiplatform Mobile App Development with React Native 
- Server-side Development with NodeJS, Express and MongoDB
